FROM THE DIRECTOR'S DESK

Mr.Prashant Bahirgonde

Esbee is always committed towards better quality of its products and services that not only meet the standard requirements but also exceed the expectations of our customers. Customer satisfaction is the key focus for us and we wish and strive to be a prominent player in the power industry known for value added projects and innovative solutions.

COMPANY OVERVIEW

ESBEE POWER is a leading force in transforming untapped energy into viable, sustainable solutions. Our commitment lies in the efficient conversion of non-usable energy into practical, renewable forms. Based in Pune, our dedicated team specializes not only in engineering and consultancy services for both renewable and conventional power plants but also excels in installation of EPC power plant projects with a particular focus on boilers.

At ESBEE POWER, our core expertise lies in the development and implementation of renewable energy solutions. Our seasoned professionals relentlessly pursue excellence, ensuring the manufacturing of power plant equipment and auxiliaries adheres strictly to national and international standards. With a robust emphasis on quality and sustainability, we aim to revolutionize the energy sector by spearheading innovative approaches and solutions.

ABOUT US

Vision

To be one of the most valued companies in the field of energy and environment through efficient and economical management of natural resources.

Mission

Esbee shall continuously strive towards achieving the vision through motivation, training and development of its employees, suppliers, and empowerment of its customers to face the energy challenges of tomorrow.

CORE COMPITENCES

EPC Power Plants:

- Captive Power Plants
- Co-generation Power Plant
- IPP (Independent Power Producer)

Power Boiler

- AFBC
- Biomass - fired Boiler
  - Reciprocating Grate
  - Traveling Grate
  - Vibrating Grate

Process Boiler

Spent wash Boiler

Waste Heat Recovery Boiler

Thermic Fluid Heater

Air Pollution Control Equipment

-ESP and Wet Scrubbers for cleaner air

OUR FACILITIES

Material moving/shifting

- Overhead EOT Cranes
- Mobile Crane – Hydra
- Plate Bending Machine
- Tube Bending Machine
- Hydraulic Press Machine
- Hydraulic Tube Swaging Machine

MATERIAL REMOVAL/CUTTING

- Abrasive Cut-off Machine
- Radial Drilling Machine
- Pillar Drilling Machine
- Magnetic Drilling Machine
- Flame Cutting Machine
- Pug Cutting Machine
- CNC Plasma Profile Cutting Machine

CLEANING, PAINTING, COATING

- Shot blasting Machine
- Polishing Machine
- Manual Spray Painting

Welding machines

- Rectifier
- Welding Transformer
- CO2 Welding Machine
- TIG Welding Machine

OUR USP'S

Swift Customer Service: Our company is dedicated to a rapid response for our esteemed clients, ensuring prompt and efficient service.

Decisive Decision-Making: Directors directly engage in decision-making processes, ensuring quick responses to customer needs and requirements.

Customized Solutions: We offer flexible and tailored solutions that meet the unique requirements of each customer, adapting to their specific needs.

In-House Expertise: Our dedicated in-house team manages project erection and commissioning activities, eliminating reliance on third-party contractors for quality assurance.

O&M Support: We provide comprehensive support for Operations & Maintenance (O&M) activities, ensuring the smooth operation of our clients' plants.

IBR License and Approval: Our facility holds an IBR Class I boiler manufacturing license and possesses IBR licenses for boiler erection, repairs, and piping work, ensuring compliance with industry regulations.

Certified Quality Standards: Implement Kaizen and Six Sigma manufacturing methodologies to ensure zero defects and uphold the highest quality standards in timely project execution.

Innovation-driven Solutions: Our commitment to innovation ensures that we introduce pioneering solutions to keep our clients ahead in the market, providing a competitive edge.
